# Who we are

We design.  
We build.

A Hereford based business, est. 99. Truland established its reputation in civil engineering and construction, and today, our identity remains rooted in this deep, hands-on expertise, where we continue to be characterised by an unwavering commitment to delivering work of uncompromising quality and durability.

**"At our core, we're dedicated to constructing safe, collaborative, and thoughtfully crafted projects, committed to quality and deliverability every step of the way. We understand that a truly successful build goes beyond the physical—it reflects your investment."**

From our very first conversation to the final touches, our dedicated team takes pride in delivering solid craftsmanship and outstanding service. We apply a focused approach to projects of any size or complexity, always prioritising clear, transparent communication and a personalised approach, ensuring your vision isn't just understood but truly elevated.

We also ensure your investment lasts. From new builds to decades-old structures, we handle all maintenance—from minor fixes to urgent work—with the same focused approach. And when it's time to refurbish, we expertly transform spaces, always aiming for high-quality, enduring outcomes that truly maximise your investment.

Truland Construction Fitout - Alliance Court Dental, Ludlow

# Built to make a difference

**Planning with precision. Building with confidence.**

We believe successful projects start with exceptional planning, long before an excavator gets anywhere near the ground!

**We design** – collaboratively with engineers, architects, designers & client teams – aligning scope, schedule & cost.

**We plan** – a successful build relies on meticulous planning. Here, we consider every detail to ensure a seamless construction phase, guaranteeing a successful outcome.

**We build** - we meticulously apply a systematic approach to product quality, allowing us to deliver exceptional build standards, no matter the project scope or scale.

## INSURED

We hold:

- 5 million in public liability insurance
- £10 million in employers liability
- £1 million of professional indemnity.

This is our way of protecting you, your build, and our team.

# Our services

---

## DESIGN & BUILD

As your single, dedicated design and build partner, we expertly manage your project's entire journey, from initial concepts to a seamless handover.

We assume complete accountability, expertly managing every detail—from navigating all pre-construction & design work, CDM, planning and building regulations to meticulously coordinating all trades. This integrated approach ensures a consistent standard of quality and expertise, providing you with total peace of mind under a single point of responsibility.

## CIVILS

As the bedrock of our business, civil engineering is where our story began and remains a cornerstone of our operations.

Our team excels in all civils & groundworks, from initial excavations, drainage, foundations & structural concrete to roadways, yards & car parks. This core expertise ensures a solid, reliable base, reflecting our commitment to quality and durability from the ground up.

## FITOUT

Our fit-out service transforms spaces into thoughtfully designed, practical environments. We orchestrate every detail—from custom joinery to intricate mechanical and electrical installations.

Whether creating dynamic offices, engaging retail stores, or highly specialised spaces like dental practices and gyms, we expertly tailor each environment to reflect your unique brand and support your operational vision..

## CONSTRUCTION

Our construction expertise is proven across a diverse portfolio, ranging from large-scale industrial and manufacturing facilities to bespoke commercial spaces.

We undertake complex structural alterations, extensions, and refurbishments with the same meticulous precision and detail-oriented approach that we apply to ground-up new builds.

Built on understanding – It starts with  
a conversation.
